Subject: Guardrail End Terminal Layout Detail Revisions

Sent on Behalf of Mary Viparina, Assistant State Engineer, Roadway Engineering Group

Minor revisions to clarify front taper lengths have been made for the guardrail end terminal layout details listed below. Please utilize these revised sheets when developing new plan details. Plan detail sheets already generated do not require revision.

X10402 Layout for SKT-350, 2 Foundation Soil Tubes (AC Pavement), Sheet 2 of 2

X10412 Layout for SKT-350, 8 Foundation Soil Tubes (PCCP, With Curb), Sheet 2 of 2

X8041 Layout for SRT-350, HBA Posts (AC Pavement)

Y10402 Layout for ET-PLUS, HBA Posts, (AC Pavement), Sheet 2 of 2

Y10412 Layout for ET-PLUS, 8 Tube Sleeves (PCCP With Curb), Sheet 2 of 2

Y1042 Layout for FLEAT-350

The revised detail sheets are available on our website in .dgn and .pdf format at http://www.azdot.gov/highways/Roadway_Engineering/Roadway_Design/Details/index.asp#Guardrail

Please distribute this e-mail to all design personnel in your respective Groups, Sections and Districts including consultants. You can direct any questions regarding this material to Chris Cooper, Terry Otterness or Bob Fortune.
