

Loop 303/Interstate 10 Interchange

Phase I: Late 2011 - Summer 2012

The **Arizona Department of Transportation** is set to begin construction on the new Loop 303/I-10 Interchange in Goodyear. When completed, motorists can expect:

- ▶ Ramp connections between Loop 303 and I-10, similar to the Loop 101 and I-10 Interchange in Tolleson and Avondale
- ▶ Loop 303 widened to a six-lane freeway (three lanes in each direction) extending from I-10 in Goodyear to US 60 in Surprise

INTERCHANGE CONSTRUCTION TIMELINE

It is anticipated construction will begin in early December 2011, and all construction phases will conclude fall 2014. As with any complex construction project, there is a possibility that severe weather or other unforeseen difficulties may result in unscheduled closures, restrictions, or changes and could cause the timelines for the construction phases to shift.

WHAT'S HAPPENING IN PHASE I

- ▶ Construction of new interchanges on I-10 at Sarival Avenue and Citrus Road
- ▶ Improvements made to Cotton Lane and to Thomas Road
- ▶ Cotton Lane south of McDowell Road will remain open, but restrictions will be needed at times
- ▶ Loop 303 will remain open, but restrictions will be needed at times
- ▶ I-10 open during peak-travel times in both directions at Citrus Road and Sarival Avenue. But, restrictions/closures to I-10 at Citrus Road and Sarival Avenue may be needed at times.

WORK HOURS

ADOT understands road construction can be frustrating and cause inconveniences. With this in mind, **ADOT** strives to work when traffic volumes are at their lowest.

- ▶ Non-peak hours from 9 a.m. to 3 p.m. Monday - Friday
- ▶ Nights from 9 p.m. to 5 a.m.
- ▶ Weekends from Friday night to Monday early morning

However, work may occur 24/7 thru the duration of the project.
